

Roll With The Punches

Mk.gee

I've been told this takes time
It's something I don't get, but it's something on my mind
Ooh

And we can dance if we want
I'm good at forgetting 'bout what's going on
Ooh

But I always cared for you
Fall on both knees, too
Let me tell you something true
Can't make it off but these things never do, aye

Oh, I'll never be fooled
Even though now I want to
Don't you know it's true?
Roll out the punches, never through

And she said
Don't you worry 'bout me
You know I'm on my own team
And I can find another you
One that loves me more, too

I don't need to play games
I sense the brother doesn't feel that way
Ooh
Self control I don't like
But if you hold me, I always hold you back
Ooh

But I always cared for you
Fall on both knees, too
Let me tell you something true
Can't make it off but these things never do, aye

Oh, I'll never be fooled
Even though now I want to
Don't you know it's true?
Roll out the punches, never through

And she said
Don't you worry 'bout me
You know I'm on my own team
And I can find another you
One that loves me more, too

Oh I never, oh I never
Oh I never, ever put you down
Oh I never, oh I never
Oh I never, ever put you down
