

Before you came into my life, everything was black and white
Now all I see is colour
Like a rainbow in the sky
So, tell me your love will never fade
That I won't see no clouds of grey
'Cause I don't want another
You bring colour to my life, baby

Life was so heavy, I was giving up, na, na
But since you came along, I'm light as a feather, ah
You give me something incredible, sensational, baby
When we're together, everything is better
My darling

Only you can brighten up my day
You make everything change, you rearrange
Don't go away
Let me tell ya

Before you came into my life, everything was black and white
Now all I see is colour
Like a rainbow in the sky
So, tell me your love will never fade
That I won't see no clouds of grey
'Cause I don't want another
You bring colour to my life, baby

Now all I see is colour
You bring colour to my life, baby
Now all I see is colour
You bring colour to my life, baby

I never thought that I would meet anybody
Who knows my body how you know my body (ah, yeah)
I can't deny I see us stick around 'cause we paint the town
Anyway that we want it
Like red and yellow and pink and green
That's what I see when you're here with me
Everything is brighter 'cause the limit is the sky
Baby, that's the way you make me feel

You know that

Only you can brighten up my day, yeah
You chase all those grey clouds away (you chase all those clouds away)
Help me find a brand new shade of me (me)
You make everything change, you rearrange
Don't ever fade (don't fade)
Don't fade, don't fade, don't fade, don't fade
You bring the colour, you bring the colour
Yeah, you bring the colour (oh, yeah)

Before you came into my life, everything was black and white
Now all I see is colour
Like a rainbow in the sky
So, tell me your love will never fade
That I won't see no clouds of grey

'Cause I don't want another
You bring colour to my life, baby (to my life)
Before you came into my life, everything was black and white (now all I see
is colour)
Now all I see is colour (now, all I see, I see, yeah)
Like a rainbow in the sky
So, tell me your love will never fade (tell me, tell me, tell me)
That I won't see no clouds of grey (tell me, tell me, tell me)

Now all I see is colour
You bring colour to my life, baby
Red and yellow and pink and green
That's what I see when you're with me
You bring the colour
You bring the colour (now all I see is colour)
You bring colour to my life, baby

Ah
Na na na na, na na
Now all I see is colour
You bring colour to my life, baby
