Baby, baby, baby, I wrote a song about you last night It had the strangest melody I wrote a song about you last night And it went a little something like La la la, you broke my heart in two I don't know what to do, you've got me so confused now Baby, I wrote a song about you last night, oh Sitting in this empty room Telling myself I'm over you I'd rather be alone than lonely, wonder if you're thinking of me Well, do ya? Time has passed for someone new Look at what you've put me through I'd rather be alone than lonely, wonder if you're thinking of me Well, do ya? Baby, baby, baby, I wrote a song about you last night It had the strangest melody I wrote a song about you last night And it went a little something like La la la, you broke my heart in two I don't know what to do, you've got me so confused now Baby, I wrote a song about you last night, oh I was lost in the melody Found in the memories Just say you love me, I'll believe it, you don't even have to mean it It's all I want Every time I look around, I sit and wonder Where did you disappear? My thoughts are no longer a capella but it doesn't seem to matter Cause I feel you here, I feel you here Baby, baby, baby, I wrote a song about you last night It had the strangest melody I wrote a song about you last night And it went a little something like La la la, you broke my heart in two I don't know what to do, you've got me so confused now Baby, I wrote a song about you last night, oh Baby, baby, baby, I wrote a song about you last night It had the strangest melody I wrote a song about you last night

And it went a little something like La la la, you broke my heart in two

I don't know what to do, you've got me so confused now

Baby, I wrote a song about you last night, oh
