

You'll never reach the surface  
Never reach the surface  
Surfing underneath the goddamn truth

Piercing the shield  
Piercing the shield  
Piercing the shield within your mind

Piercing the shield  
Piercing the shield  
Piercing the shield within your mind

(Within your mind)  
Within your mind  
The truth is fading away  
Will I ever get through?

No matter the pain  
No matter if it's in vain (if it's in vain)  
No matter the pain  
No matter if you get insane  
No matter if you get insane

You feel so fucking down  
Don't you feel alive  
You feel so fucking down  
Don't you feel alive

You're just a time bomb  
No matter if you're right or wrong  
This is just your damn song  
No matter if you're right or fucking wrong

No matter the pain  
No matter if it's in vain (if it's in vain)  
No matter the pain  
No matter if you get insane

No matter the pain  
No matter if it's in vain (if it's in vain)  
No matter the pain  
No matter if you get insane  
No matter if you get insane

No matter if it's in vain  
No matter if you get insane

No matter the pain  
No matter if it's in vain (if it's in vain)  
No matter the pain  
No matter if you get insane
