

Clean Up On Aisle Five

Mo Pitney

I stopped off at the grocery store
To pick up a few things
And I was reaching for some Cheerios
When I heard someone say my name
I knew exactly who it was
My heart started to race
I turned around my legs got weak
When I saw her face

There stood the girl that broke my heart
Just a year ago
I thought that I was over her
But little did I know
That running into her like that
Would leave me in a total mess
Wishing that we never said goodbye

And if I wasn't standing in that store I might have laid right
on that floor and cried
I heard that voice I saw that smile
Clean up on aisle five

She ran over and hugged my neck
I didn't want her to let go
She smiled and said I looked just like a kid
With my box of Cheerios
We laughed and talked about old times
Which wasn't all that smart
Cause it just left me with an emptiness
When she pushed away her cart

And if I wasn't standing in that store I might have laid right
on that floor and cried
I heard that voice I saw that smile
Clean up on aisle five

She walked away looked back and smiled
Clean up on aisle five
