

Plain And Simple

Mo Pitney

It ain't flashy like the fireworks show
We watched on New Year's Eve
It's right out there in the open air
Ain't nothing up my sleeve
Don't overdo it, over state it
Convolute it, complicate it

Plain and simple
Like a penny in a well
Makes the water ripple
Just in the nick of time
It's right as rain on a field
Always have and always will
Love you plain and simple

It ain't gonna come and go
Or just up and disappear
It's been through the highs and lows
And it don't show no fear
Front porch light, rocking chair
Just like home, it's always there

Plain and simple
Like a penny in a well
Makes the water ripple
It's neither left or right
Yeah, it's right down the middle
Like an arrow hits a target, baby

True and steady
And ready for the burden
When the load gets heavy
Just in the nick of time
It's right as rain on a field
Always have and always will
Love you plain and simple

Pure and honest
Of all the open highways it goes on the longest
It never says goodbye
It's right as rain on a field
Always have and always will
Love you plain and simple
Plain and simple
