Freedom (#1)

MØ

(Mmmmm)

(Say what)
What am I gonna do, dearest brother
My inner peace disturbed by the smother
I broke them good, it rings in my hood
And hard on me to ooh-ah, to get away
Ooh

I wanna walk drunk into the water
And get some secret solace from another
There go my horses, big on their fours
And lead you to madness, I need to get away
Ooh

Wisdom comes to those who seek the land behind the sun
Well on the sea go, end of believers, show me all your fun

(Say what)
No one will try to save us this time
Come on my love, let's set the world on fire
No one will try to save us, I swear
Freedom is like this, we can't go anywhere, anywhere

They ain't never gonna get what they had
They ain't never gonna see it like that

(Say what)
And you throw yourself into the river
And everything was worse than ever
There go my horses big on their fours
And lead you to madness, I need to get away
And a little frightened out on the ocean
Ride you're inside, but a bit better

(Say what)
Ooh

Wisdom comes to those who seek the land behind the sun
Well on the sea go, end of believers, show me all your fun

No one will try to save us this time
Come on my love, let's set the world on fire
No one will try to save us, I swear
Freedom is like this, we can't go anywhere, anywhere

They ain't never gonna get what they had
They ain't never gonna taste what it's like
They ain't never gonna get what they had
They ain't never gonna stay like that

(Say what)
They ain't never gonna get what they had
(They ain't never gonna get what they had)
They ain't never gonna taste what it's like
(They ain't never gonna taste what it's like)
They ain't never gonna get what they had

(They ain't never gonna get what they had)
They ain't never gonna stay like that
(They ain't never gonna stay like that)

(Say what)
