

# Goodbye

MØ

Close your eyes and jump, baby  
I've got faith in ya  
Time will make a change put my love in a cage  
Tell me I'm a flyer, brother  
Yes I'm the one, oh  
Geez, time shrunk like crazy, crazy

One day I will follow your paths  
Wish I could keep what I got  
Love take me away

Goodbye my lover, my everything  
Dance with me one last time  
Caress me and then  
Goodbye my lover, please don't contact me for a while  
I need to get my thoughts away from you

Going around in great streets and  
Think of your head  
It's a dead end war like the parties in the town  
Say ya take me to your place  
I know it won't change  
But please fake it, babe, for old times sake

This is as hard as I thought  
Wish I could keep what I got  
Love take me away

Goodbye my lover, my everything  
Dance with me one last time  
Caress me and then  
Goodbye my lover, please don't contact me for a while  
I need to get my thoughts away from you

I see your face everywhere

Goodbye my lover, my everything  
Dance with me one last time  
Caress me and then  
Goodbye my lover, please don't contact me for a while  
I need to get my thoughts away from you

Close your eyes and jump, baby
