

Heartbreak

MØ

Before the heartbreak
Before the heartbreak

I wanna love you
I wanna see the truth
Don't give me half the truth
'Cause I know what it feels like
I want to trust my guide
I want to be the odds
And if I'm hurt somewhat
I know what it feels like
Just show me love

Heartbreaks right here underneath the ceiling
Life short come and give me all the feeling
Show me love, show me love, show me love
Show me love, show me love, show me love
Heartbreaks right here underneath the ceiling
Life short come and give me all the feeling
Show me love, show me love, show me love
Show me love, show me love, show me love

Before the heartbreak
Show me love, show me love

I know you are afraid
To give me your night and day
But don't take me out, no way no way
'Cause I know what it feels like
Don't run away from us
'Cause we're gonna be the odds
So, I'd rather be hurt and stuck
'Cause I know what it feels like hey

Heartbreaks right here underneath the ceiling
Life short come and give me all the feeling
Show me love, show me love, show me love
Show me love, show me love, show me love
Heartbreaks right here underneath the ceiling
Life short come and give me all the feeling
Show me love, show me love, show me love
Show me love, show me love, show me love

No, 'cause I wanna know what it feels like
What it feels like
Before the heartbreak

No, 'cause I wanna know what it feels like
What it feels like
Before the heartbreak

Before the heartbreak
Before the heartbreak
