

Hip Bones

MØ

I don't know
Just hold me close to your hip bones
I don't know
Just hold me close to your hip bones

All guns and shields on ground
I left mine at the doorstep
I know I let you down
I treat the ones I love
With a rough hand, I don't know why I do it
Maybe just to test your will
You got jaded, I started fading
Crazy, how the time flew

Let me into your arms, baby
You can't keep me away
We will remember ourselves as we forget yesterday
You say, "Love, where do we go from here?"
I say, "I, I don't know, just hold me close to your hip bones"

I don't know
Just hold me close to your hip bones

Come, let your fears be free
I locked mine up for ages
Be face to face with me
Push the ones I love
With a rough hand, away from me
I don't wanna do it this time, no, no

Let me into your arms, baby
You can't keep me away
We will remember ourselves as we forget yesterday
You say, "Love, where do we go from here?"
I say, "I, I don't know, just hold me closer"

Let me into your arms, baby
You can't keep me away
We will remember ourselves as we forget yesterday
You say, "Love, where do we go from here?"
I say, "I, I don't know, just hold me close to your hip bones"

I don't know
Just hold me close to your hip bones
