

# Live to Survive

MØ

Been down the valley of regret  
I swam in the river  
I reached for peace I couldn't get  
'Cause somebody said it would be there  
Ee-eeh  
Nights of messed up energy  
Ee-eeh  
Thought you'd be the last of me, baby

I live to survive another heartache  
I live to survive another mistake  
I live to survive another heartache  
I live to survive  
I live to survive another heartache  
I live to survive another mistake  
I live to survive another heartache  
I live to survive

You cling to lies and call it truth  
It's so deep in your nature (Oh)  
You dragged me down that hole with you  
So now you can stay there  
Ee-eeh  
Love sure is a mystery (Yeah)  
Ee-eeh  
But you won't be the last of me, baby

I live to survive another heartache  
I live to survive another mistake  
I live to survive another heartache  
I live to survive

Watch me, I'm back on my feet  
I'm back on my feet, I'm back on my feet  
Ready for the century  
For the century, for the century, yeah  
You thought you were out of my league  
I'm out of your league, I'm out of your league  
Watch me, I'm back on my feet  
I'm back on my feet and free

I live to survive another heartache (Ooh)  
I live to survive another mistake  
I live to survive another heartache (Ooh)  
I live to survive

I live to survive another heartache (I live to survive)  
I live to survive another mistake  
I live to survive another heartache (I live to survive)  
I live to survive

Baby  
I live to survive another heartache  
Another mistake  
Another heartache  
Oh yeah
