

Lose Yourself

MØ

I'm walkin' in the light of a thousand dead stars
Lookin' up, wondering where you are
I wish I would've known how you felt then
Would've told you, you don't have to pretend

Go lose yourself
Don't lose, don't lose each other
Go lose yourself
Don't lose, don't lose each other
Play the music
And dance like you don't bother
Go lose yourself
Don't lose, don't lose each other

Go lose yourself
Don't lose, don't lose each other

I wanna see a show with the Chili Peppers
Feel my chest bright as LA weather
I wanna hug my friends till we stuck together
It's our time now, it won't last forever

I wanna surf on the sea of chaos
Learn how to see all the layers
Follow the light, never look back
Hear my prayer

Go lose yourself
Don't lose, don't lose each other
Go lose yourself
Don't lose, don't lose each other
Play the music
And dance like you don't bother
Go lose yourself
Don't lose, don't lose each other

Go lose yourself
Don't lose, don't lose each other

Go lose yourself
Don't lose
Go lose yourself
Don't lose
Play the music
(Just play the music, yeah)
Go lose yourself
Don't lose, don't lose each other

Go lose yourself
Don't lose, don't lose each other
Go lose yourself
Don't lose, don't lose each other
Play the music
And dance like you don't bother
Go lose yourself
Don't lose, don't lose each other

Hey, hey, hey
Hey, hey, oh
