

# Northern Lights

MØ

I think my skin is turned see-through  
They say that I'm half-crazy  
I wanna see the edges with you  
High on a cloud in my heart  
It feels like every day is so new  
That all is wide is changing  
But if I'm ever lost, I have you  
High in a cloud in my heart

But when the northern lights finally reach you  
Will you find peace in your heart?  
Will it leave you high on the heat of life  
Or will it tear you apart?  
Oh, I say take me away  
Oh, oh-oh-eeh, oh-oh-eeh, eeh-eeh  
When the northern lights finally reach you  
Will you find peace in your heart?

I think the waves are turning again  
Like someone's pulling in them  
Lend me a smile, invisible friend  
High on a cloud in my heart  
I think this guy is calling for me  
That's what the birds are singing  
I wanna grab your hand and just fly  
High on a cloud in my heart

But when the northern lights finally reach you  
Will you find peace in your heart?  
Will it leave you high on the heat of life  
Or will it tear you apart?  
Oh, I say take me away  
Oh, oh-oh-eeh, oh-oh-eeh, eeh-eeh  
When the northern lights finally reach you  
Will you find peace in your heart?

In your heart  
In your heart  
In your heart  
In your heart  
In your heart  
Promise in your heart  
Promise in your heart, you'll find

When the northern lights finally reach you  
Will you find peace in your heart?  
Will it leave you high on the heat of life  
Or will it tear you apart?  
Oh, I say take me away  
Oh, oh-oh-eeh, oh-oh-eeh, eeh-eeh  
When the northern lights finally reach you  
Will you find peace in your heart?
