

Purple Like the Summer Rain

MØ

Take me all the way to California
They'll be making hits on every corner
We are gonna be happy, I promise ya
We can keep it up with California, ya, ya

Making money grow
'Cause baby you, and I we fly
Like leaves in the blue sky

This is what I wanted all my life, no one can take it, no
Pour me all the wine and let me picture that I made it, oh
This is what a universal fairytale is made of
Sugar in my veins
Sugar in my veins
This is what I wanted, don't stop
Playing with the old stars above
This is what a universal fairytale is made of
Sugar in my veins
Purple like the summer rain
Purple like the summer rain
Purple like the summer rain
Purple like the summer rain
Purple like the summer rain

California
You're aware that everybody wants ya, yeah
Just like my old crush, yeah, he was something else
Now I found my love in California, ya, ya

I know I'll be happy
'Cause you and I, we fly
Like leaves in the blue sky
Yes, you and I we fly (fly)
Like leaves in the bright night (night)

This I what I wanted all my life, no one can take it, no
Pour me all the wine and let me picture that I made it, oh
This is what a universal fairytale is made of
Sugar in my veins
Sugar in my veins
This is what I wanted, don't stop
Playing with the old stars above, high above ya
This is what a universal fairytale is made of
Sugar in my veins
Purple like the summer rain
Purple like the summer rain
Purple like the summer rain
Purple like the summer rain
Yeah, purple like the summer rain

To be a child again
To not have to worry about the responsibilities of adulthood
What is a girl to do?
Where the skies are blue
Uh, I trashed a glass and they looked at me like I was a mad animal
We all want it, we all want it, we all want it
You know we all want it

So what is a girl to do?
Oh, oh
Yeah, yeah, yeah
Where the skies are blue
Let me float
