

## New Horizon

## Mob Rules

I left my body the other day  
And reached my inner feel  
Dreams and hopes for a better way  
In space where faith is real

I find the answers behind the moon  
Light years from my birth  
I'm sure my love will follow soon  
Will leave her place on earth

I jumped off the wall  
And stared at the sun

It's time  
For a new horizon  
My spirit is spread in the air  
The place where  
My dreams are rising  
Is worth to be handled with care

Lost in space we see the light  
And let out spirit free  
Warm the days and cold the night  
It's good to stay with me

I jumped off the wall  
And stared at the sun  
I'm leaving the hall  
And started...

Because of  
A new horizon  
Your spirit is spread in the air  
The place where  
Your dreams are rising  
Is worth to be handled with care
