

The Explorer

Mob Rules

Won't you come closer now to hear my words
Our ship seems lost on the open sea
We need to find our Promised Land unknown
Please try to hide your fear and agony

No clouds today
The stars will lead the way

Just follow the light
Follow the light
The stars scatter fright
Our guide, our might

A secret passage for discovery?
The sky's the only choice, our confidence
Assist to navigate through foreign seas
Return one day with fame and opulence

No clouds tonight
The stars by our side

Just follow the light
Follow the light
The stars shine so bright
Our guide, our might
