

## Carry On

Mobile

You know how much I love you when I'm down  
You know I nearly lost you, underground  
They told you that I was likely dead and gone  
Well, you know I nearly lost you but I turned around  
If they owe you then how much do you want?  
They fooled you, now you can't live without

They said  
Carry on, carry on  
Carry on, carry on  
Feelin' a moment  
Carry the motion  
See what you're made of

'Cause you know how much I failed you  
When I was down  
But you know how much I fought back and turned around  
As I walked through this darkness all alone  
Unchanged within, to see all that changed without

They said  
Carry on, carry on  
Carry on, carry on  
Feelin' a moment  
Carry the motion  
See what you're made of  
If you hold my heart, hold my heart  
Carry me back to the start  
Hold my heart, hold my heart  
I've been counting on you

Let us forget and now recall  
The best of us, the worst of all

Circling back to find you're on your own  
Circling back to find you're holding out  
Circling back, circling back, circling back to find you

They said  
Carry on, carry on  
Carry on, carry on  
Feelin' a moment  
Carry the motion  
See what you're made of  
If you hold my heart, hold my heart  
Carry me back to the start  
Hold my heart, hold my heart  
I'm always counting on you

Hold my heart  
You hold my heart  
Oh, I've been counting on you
