

# Electrolove

Mobile

She's a lo-fi lovely honey child  
She said that she was born at the wrong time  
She's electric, ultrasonic  
And she'll groove the way you want it

Every little kiss that flows will get outta control  
She knows, she knows

She can try to lead sometime  
She's like a drug  
She can try to lead sometime  
She's just electrolove

When she comes by and sets your heart on fire  
She is a blooming flower reaching for the sky  
She's electric, ultrasonic  
But you won't let her come and let her fire your love

Every little kiss that flows will get outta control  
She knows, she knows

She can try to lead sometime  
She's like a drug  
She can try to lead sometime  
She's just electrolove

Oh... oh... oh... oh...  
Just a little shy  
Long firing wild  
Oh, she started suicide  
It's alright, it's alright

She can try to lead sometime  
She's like a drug  
She can try to lead sometime  
She's just electrolove

Oh, she started suicide  
It's alright, it's alright  
It's alright, it's alright
