

# The Saboteur

Mobile

The sorcerer's are coming  
Get back and lock your door  
You think you're safe but what is dead is glowing  
Shock! Stitch it to the floor  
Get down to the Monterrey  
Breakfast with the poor  
I bet they bring back Mod without you  
Walk down the ghetto  
Keep them down below  
And then I beg to you  
Let my brother go

We let this one  
Cry the people  
To get this down  
Let's go

Take down the Saboteur  
Don't lock the door  
I'm up for more  
Take down the Saboteur  
I'm breaking down in front of all the world  
Let's break the Saboteur  
The voices in my head  
I'm wasted down on the boulevard

The Saboteurs are calling  
Just listen through the door  
What!  
I went downtown  
Waited for the money  
Shock! I just can't get no more  
Get down to the Monterrey  
Breakfast with the poor  
I bet those mods wanna fight a little more  
Walk down the ghetto  
Keep them down below  
And then I beg to you let my brother go

We let this one  
Cry the people  
To get this done  
Bombs away

Take down the Saboteur  
Don't lock the door  
I'm up for more  
Take down the Saboteur  
I'm up from, my love is pure  
I'm breaking down in front of all the world  
Let's break the Saboteur  
I'm wasted down on the boulevard

I'm up  
I'm up  
I'm up

And as the days go on  
I wish you'd go away  
And when you sabotage yourself in every way

I'm up  
I'm up  
I'm up  
I'm up  
I'm up  
I'm up

Take down the Saboteur  
Don't lock the door  
I'm up for more  
Take down the Saboteur  
I'm up from, my love is pure  
I'm breaking down in front of all the world  
Let's break the Saboteur  
I'm wasted down on the boulevard

Bombs away
