

Beautiful Is Beautiful

Moby Grape

How you been? I ain't seen you for a while, a ha
Heard you've been livin' up on the hill, are you still? Oh
Said you want to live right, be mine all night

How's your mother, has she been bringing you down?
Heard you've been livin' up on the hill, are you still?
Say you want to live right, we're gonna all fight

How's your daddy, has he made you feel more alive? (oh, child)

Heard you been back down to where you come from (hold on, hold on, all drunk)
Say you want to live right, it'll be all right

Can you see them, tell me who's pushin' you around
Heard you've been livin' up on the hill, are you still?
Say you want to live right, we're gonna all fight
