

## Horse out in the Rain

**Moby Grape**

There's a horse out in the rain  
He longs to see the day  
When his spirit can fly away  
Far from his aching heart  
Free as the wind

There's a horse out in the rain  
And he's waiting until the summer comes around again  
With all the strength he has within  
He tries to stand the pain

He longs to see the day  
When his spirit can fly away  
Far from his aching heart  
Free as the wind

There's a horse out in the rain  
And he's waiting until the summer comes around again  
With all the strength he has within  
He tries to stand the pain

There's a horse out in the rain
