

## Break.Doubt

Moby

I won your prizes and more  
I went and lost them in a foreign war  
Like grace is thrown down the well  
Selling off heaven for a perfect hell

All for their ideas of love  
All for their ideas of a dying love

Break it up (break it up) and put in line  
We shut it down (shut it out) shut it over in time  
Say your farewells (not now) say your goodbyes  
Repeat after me (with doubt) I will never die  
Break doubt...  
Break doubt...

I can't fight no more  
Not in the future or what's gone before  
I can't break it if I wanted to give  
I can't kill if I wanted to live  
We're fighting wars in the head here  
Tossed in the distant night by the airless fear  
We're fighting wars in the shadows now  
I'm fighting wars with the shadow now

Break it up (break it up) and put in line  
We shut it down (shut it out) shut it over in time  
Say your farewells (not now) say your goodbyes  
Repeat after me (with doubt) I will never die  
Break doubt...  
Break doubt...
