

My Machines

Moby

All we are is rusted by myself
Sitting while I was gone
There's no one else, but
My machines
My machines
My machines
Don't leave me

I don't know if your talking to me
But I got to say always
Waiting, I'm just waiting all day
My machines
My machines
My machines
Don't leave me

Friends were always busy
And sometimes they die
If we don't care enough
To say goodbye, but
My machines
My machines
My machines
Don't leave me

'Cause, baby, in this life there's love, I've seen
'Cause, baby, you ain't the same to me
My machines
My machines
My machines
Don't leave me
