on air

Moby

7am and the sun is hidden
I see tears in your eyes but the love is missing
I wanna hold you and not fight
May the shadows leave us be at night
Wanna say I know you and be right
May the shadows leave us be at night
May the shadows leave us be at night

It's been a minute since I've seen you smile
But I believe in us somehow
It's been a minute since I've seen you smile
But I believe in us somehow

It's almost noon and the sun's still low
Hope the seeds I planted choose to grow
I wanna hold you and not fight
May the shadows leave us be at night
Wanna say I know you and be right
May the shadows leave us be at night
Wanna say I know you and be right
May the shadows leave us be at night
May the shadows leave us be at night

It's been a minute since I've seen you smile
But I believe in us somehow
It's been a minute since I've seen you smile
But I believe in us somehow
It's been a minute since I've seen you smile
But I believe in us somehow
It's been a minute since I've seen you smile
But I believe in us somehow
