

Like dreams we held as the silence ends  
I saw the space between all those different worlds  
And beside them the lives go on  
So they are, always laying down  
The people decide what are the signs and wonders  
Hiding in motion hiding like water

Hiding in the silence here  
Hide in the pain that's near  
Hide in what I can find  
Hide in the precious mind  
Hide in the precious mind

Like dreams they are in the quite  
There is so much time between all these different worlds  
Life is fading through loss  
All will hold it slips away  
The people decide what are the signs and wonders  
Hiding in motion, hiding like water

Hide in the silence here  
Hide in the pain that's near  
Hide in what I can find  
Hide in my precious mind

Hide in the silence here  
Hide in the pain that's near  
Hide in what I can find  
Hide in my precious mind  
Hide in the precious mind  
Hide in my precious mind  
Hide in my precious mind
