

Rescue Me

Moby

In this time
The pain just wears me down
The darkest night we've known
And only peace and sound
I'm breaking out
And you still bleed
Come rescue me
Oh rescue me

From this life
From this life
From this life
From this life
From this life
From this life
From this life
From this life
From this life

Oh my love
I watched the days go down
I'm in the dark right now
It's like my will is gone
I'm breaking out
Oh yes now bleed
Come rescue me
Oh rescue me

From this life
From this life
From this life
From this life
From this life
From this life
From this life

Come rescue me
Oh rescue me
From this life
From this life
From this life
