

Say It's All Mine

Moby

Well, I know it's over
Like a waste of mind
Well, I know it's side ball
I can't seem to find
Like a waste of someone
Like a wasted home

Well, I know it's over
I know it's over long
Did you ever slip inside my ozone?
I saw it in my eyes

Ever slip into me, baby?
And I know it's mine
I gotta say it's all mine
With so low

Well, I know it's not mine
With so much
Well, I say it's all mine
With so low
And I know it's not mine

Well, it's solace, baby
I saw the face of mine
You took my hand and held on
For the longest time

I was always looking
To be the one for you
It could have been so perfect
If I still lied at you

And I want to scream
Inside you no one
Did you ever look at me?
I saw a place where I was open

Now, it will die mine
I gotta say it's all mine
When no man
When I know it's not mine

With so much
When I'm faking the lies
With so low
I gotta say it's all mine
Gotta say it's all mine
Wanna say it's all mine
Gonna say it's all mine

It was so good, it was so good
It was so good, it was so good
It was so good, it was so good
It was so mine

I gotta say it's all mine

With so low
When I know it's not mine
It's over

And I can face it no lie
With so much
Well I know it's not mine
With so low

I know it's not mine
With so much
I gotta face it's a lie
With so low

I know it's not mine
With so far
I gotta place it's a lie
It was so good

So good, say it's so good
Say it's so good
Say it's so good
Say it's so good
Say it's so good
