Moby

It's too hard to pick up all the way
That I have found where your precious love don't come back for more
Will you?
How to move on cause
What is it for?
Let's cruise it all away

Why do you want more than
Shadow man
Shadow man
Where do you run from then?
Shadow man
And the way it made me feel untrue
Hold it back don't be like you
Then you're on the way
You don't pass
The timings on the left
But it calls

Where I would roam
Where I went home
And the way that I made it make of feel
I'm better off
Better off
Wondering how better off again
I'm better off
Wondering how better off again
I'm better off
I'm better off

I'm better off
Who am I?
I'm thinner
Finished upon
Everything that's wrong with me
How does my head spin
Something is destined
I'm through scared of what these words will form
You grew
Sing your tune

Where I would roam
Where I went home
And the way that I made it make of feel
I'm better off
Better off
Wondering how better off again
I'm better off
Wondering how better off again
I'm better off

Better off
Don't better things
What you want
Can't hurt to sing
How to be... don't ask

Where you is
Don't gotta know
What it do
Don't gotta show
Will it last

What I am
Don't gotta be
Find amends
Don't got to see
Will it lie?

Where I would roam
Where I went home
And the way that I made it make of feel
I'm better off
Better off
Wondering how better off again
I'm better off
Wondering how better off again
I'm better off

Wondering how better off again
I'm better off
Wondering how better off again
I'm better off
Wondering how better off again
I'm better off
Wondering how better off again
I'm better off
