

All The Way

Mocca

Every time I think about you
There's warmth inside my heart
To have you in my life is the greatest treasure
Hold my hand and stay together
Forever we explore
Let's go and find and seek for more adventures

Heaven on earth
That's all I see
When I'm with you

When I stop and think about it
All those wonders that I've seen is when I'm
With you
Only with you
This is all I ever wanted
And I won't take you for granted, I'm always
With you
Beside you
All the way

Every time when we're together
There's spark inside my eyes
To have you in my life is truly precious
Hold me tight and don't let go
Now and forever more
Let me cherish every moment and write our story

Heaven on earth
That's what I feel
When I'm with you

When I stop and think about it
All those wonders that I've seen is when I'm
With you
Only with you
This is all I ever wanted
And I won't take you for granted, I'm always
With you
Beside you
All the way

When I stop and think about it
All those wonders that I've seen is when I'm
With you
Only with you
This is all I ever wanted
And I won't take you for granted, I'm always
With you
Beside you
All the way

Only with you
Beside you
All the way
Only with you
Beside you

All the way
