

And Rain Will Fall

Mocca

I can't understand
Why my world keeps on turning?
And I can't understand
Why the sun keeps on shining?
When you left me all alone

But I do understand
That you have someone better
And I can't understand
That you saved me for later
I can take it I will wait

All that I need now
Is for the rain to fall from the sky
To wash away my pain inside
All that I need now
Is for the rain to fall from the sky
The rain will fall
The rain will fall.
