

It's Over Now

Mocca

I know that you're very nice
Never ever tell me lies
You're always there to comfort me
And cheer me up when I am down

However that is it
You've got you're world and I've got mine
And after all that we've been through I must say

Sorry honey, my heart is not for you...
Sorry baby this love is not for you
Sorry honey, my heart is not for you...
Sorry baby this love is not for you
It's over now...

However that is it
You've got you're world and I've got mine
And after all that we've been through I must say

Sorry honey, my heart is not for you...
Sorry baby this love is not for you
Sorry honey, my heart is not for you...
Sorry baby this love is not for you
It's over now...
