

# Just Say Yes

Mocca

I see no future without having you there  
In every plans that I made  
In every step that I'll take  
Everything's about you

You've always been there with me through thick and thin  
With all the joy that you bring  
The way you made my heart sing  
Everything about you

Just say yes!  
To walk this path along with me  
Just say yes!  
To take this leap of faith with me  
With only me

Will you still love me when I'm old and gray?  
Let's fill our days with laughter  
Forever ever after  
I can't live without you (Can't live without you)

Just say yes!  
Please take this chance with me  
Just say yes!  
And then settle down with me  
With only me

Life has no meaning if you're not here  
My days felt very empty  
My nights were cold and scary  
Incomplete without you

There are some feelings that I cannot explain  
Maybe I have gone insane  
One thing I knew that I love

Everything about you  
Everything about you  
Everything about  
About you

(Walk this path along with me)  
Just say yes!  
(Take this leap of faith with me)  
Just say yes!

Just say yes!
