

## Lucky Me

Mocca

Don't wanna live without your love  
Without your smile  
'Cause I know  
I love you

You are always there when I call you  
Though I know that you're not feeling right  
Even in the dark and rainy night  
You'll always there to walk me home

I'm so lucky to have you  
So happy to love you

Don't wanna live without your love  
Without your smile  
And I know I love you

You are always there when I call you  
Though I know that you're not feeling right  
Even in the dark and rainy night  
You'll always there to walk me home

I'm so lucky to have you  
So happy to love you

Don't wanna live without your love  
Without your smile  
Without your sentimental

Live without your without your cry  
Without your warm embracing

Live without your love without your smile  
'Cause I know I love you
