

## On the Night Like This

**Mocca**

On the night like this  
There's so many things I want to tell you  
On the night like this  
There's so many things I want to show you

Cause when you're around  
I feel safe and warm  
When you're around

I can fall in love every day

In the case like this  
There are a thousand good reasons  
I want you to stay...
