

Simple I Love You

Mocca

I don't have many words that I can say to you
I don't have lots of things that I can give to you
But I promise you one thing
I'll always be with you
Walking hand in hand
I'm always by your side

And I want you to know
You're not my number one
As a matter of fact
You are my only one

And I promise you one thing
I'll always be with you
Walking hand in hand
I'm always by your side

A simple I love you
That's all I want to say
A simple I love you
That's how I feel for you
A simple I love you
That's all I have to say
A simple I love you
A simple love from me

I don't have many words that I can say to you
I don't have lots of things that I can give to you
But I promise you one thing
I'll always be with you
Walking hand in hand
I'm always by your side

A simple I love you
That's all I want to say
A simple I love you
That's how I feel for you
A simple I love you
That's all I have to say
A simple I love you
A simple love from me
