

Amnesia

Mod Sun

I will be, I will be
Everything that they were not
We won't be, we won't be
One of the ones who was forgot
Ready or not, ready or not
Locked and loaded take my shot
At least I've got the heart to say it....

"Hello, I need your name....
got me feeling things I can't explain!"

I have no past when I see ya, amnesia
You make me think of my future, I need ya

I could be, I could be
The one to take the whiplash outta the mood swings
We could be, we could be
The only lovers left, were the last of a dying breed
Ready or not, ready or not
Locked and loaded take my shot
At least I've got the heart to say it....

"Hello, I need your name....
got me feeling things I can't explain!"

I have no past when I see ya, amnesia
You make me think of my future, I need ya
So give me all, that you got!
I will be, what they could not...
So give me all, that you got!
I will go, where they will stop....

So nostalgic, wasn't looking then I found it...

I have no past when I see ya, amnesia
You make me think of my future, I need ya
So give me all, that you got!
I will be, what they could not...
So give me all, that you got!
I will go, where they will stop....
