

# Annoying

Mod Sun

Butterfly kisses  
Tell me 3 wishes I'll make 4 happen  
Call it wishful thinking, call it intuition  
But I could see us lasting...  
You wake me up in the middle of the night singing  
And baby I'm listening give it to me  
Who needs sleep when I could lay in these sheets with the girl of my dreams?  
Cause you got me believing...  
We're gonna make it, I mean it!

I think I was born for your eyes only  
Never felt like this before  
And fuck it's annoying...  
Well I was born without you  
Dying to find you  
I'll always remind you...  
I love you

Butterfly kisses  
Leave your fingerprints all over my skin  
I'll be medicine, help you feel again  
That is my mission  
You wake me up at 8 in the morning...  
That's early as fuck but it's just fine with me  
Who needs sleep when I could bring you some tea, watch the waves in the sea?  
Cause you got me believing...  
We're gonna make it, I mean it!

I think I was born for your eyes only  
Never felt like this before  
And fuck it's annoying...  
Well I was born without you  
Dying to find you  
I'll always remind you...

I really can't stand being this close  
Without being able to say what I want most...  
God damn I want to  
I'll be dammed if I don't...  
I really can't stand playin by the rules  
I wanna spill my guts and just say "I love you"..."  
God damn I want to  
I'll be dammed if I don't...

I think I was born for your eyes only  
Never felt like this before  
And fuck it's annoying...  
Well I was born without you  
Dying to find you  
I'll always remind you...  
I love you
