So I, I dive straight to the center of my head  
To find the words before they get said  
To find the things I'll do before I'm dead  
Reminise that when I was a kid

Tell them all how to stay positive  
Tell them never ever take before they give  
Tell them that I'm still learning  
Tell them how to make a hit off a pitch thats curving

Tell them got to look behind the curtain  
Not sure about myself I, I I'm certain  
Don't even kick it no more I'm working  
You can say you didn't feel it but I don't mean deed

That's money thats smooth let it kick  
Just about as polite as they get  
Yeah thats word to my mom taught me how to be a man  
Instead of bringing a son into a cold world god damn

And I'll be damned to fight the last one  
Two feet from the plan and still standin  
Still moving them dreams arranged under none  
Still speaking that deep shit canyon

Grand vision of the years to come  
You ain't learning anything if you ain't teaching the young  
I ain't a role model though I'd rather you be yourself don't follow

Keep it running beanie  
I got this one  
Health wealth success and happiness yeah

You posses no stress  
Health wealth success and happiness  
No I wasn't blessed I'm the same as the rest  
But I was fly before I left the nest

Now I got wind beneath my wings  
Got a little weak spot for certain things  
But everyday I'm chipping away at that  
Thinking my own song you don't need that you don't need that

No more fans got a shit load of friends  
The world catching on my records  
Getting love is Australia and New Zealand  
An earthquake couldn't shake what in them

Your grasp  
Like totally free take back  
Cash in your potential greatness  
Because it worth any checks

I'm in the park playing chess  
Thinking which cold train song I like best  
Or just want to match want to match the vibe  
Took a friends sound and that lead to high five

If your afraid of heights then skydive  
If your afraid of going fast then come take a ride  
Clown around take a turn going 60  
Getting out every thought thats in me

Health wealth success and happiness
