Betterman

Mod Sun

Sometimes I feel like an animal on the side of the road
Scared just like a criminal, hiding out in the cold...
But you warm me from the inside
And you came on like a landslide...

You made me a better man
You saved me again and again
From my head to my heart there's a line that I cross...
It's never enough, never enough...
But I'm not giving up, I'm not giving up on love

I walk lost and lonely down the street
But I'm one step closer to the love I long to meet...
Will you please just let me inside?
Will you come just like a landslide

You made me a better man
You saved me again and again
From my head to my heart there's a line that I cross...
It's never enough, never enough...
But I'm not giving up, I'm not giving up on love

I'm not giving up on

I don't want to die lonely
Is it too late for "I'm sorry"?

I don't want to die lonely
I'm sorry. I'm sorry

You made me a better man
You saved me again and again
From my head to my heart there's a line that I cross...
It's never enough, never enough...
But I'm not giving up, I'm not giving up on love

I don't want to die lonely
Is it too late for "I'm sorry"?

I don't want to die lonely
I'm sorry. I'm sorry
