

Bones

Mod Sun

I'm falling apart on the inside
I don't know who's telling me lies
So I'll hold my breath in the mean time
I'm falling apart on the inside, yeah

Hurry up and wait
It's a long way down
When you're losing faith
So hold on tight it's a fast ride in the end (in the end)

Say you want me one more time
Say you need me one more time
Before I go, you're all I know
I feel you inside of my bones
So say you want me one last time, yeah

So stuck in her ways, trapped inside the valley
She stay on the internet making it look like she's happy
Her silhouette gets in the way of my shadow
Every conversation it turns to a battle (turns to a battle)

Hurry up and wait
It's a long way down
When you're losing faith
So hold on tight it's a fast ride in the end

Say you want me one more time (one more time)
Say you need me one more time
Before I go, you're all I know
I feel you inside of my bones
Say you need me one last time

Say you need me
Before I go, you're all I know
I feel you inside of my bones
Say you want me one last, one last time
