

Breakdowns

Mod Sun

Our heads are spinning
We're lost inside the screens
I haven't left my bed in
What seems like weeks
Where is the validation?
We keep searching...
We let one little mistake go and fuck up everything...

A breakdown to a breakthrough...
Don't let a breakdown break you

I miss lil peep
I miss mac miller...
We think about you everyday
And even though you're gone
We'll make sure you live forever...
And learn something from what we lost
And take something from what they gave...
Let all the bad memories teach you how to live better days...

There's a place that exists inside of my head
And it's built on all the things I never said...
If you close your eyes real tight I'm right there
So hold on tight and don't be scared...

A breakdown to a breakthrough...
Don't let a breakdown break you
