

Fireflies

Mod Sun

I love this song
Kid my age from a small city in Minnesota (Owatana)
Number one on the charts
How's that for inspiration?

Once again, when some shit try to phase me
I turn to music and the motherfucker save me
I'm on the right path to where I wanna go
I'll have the whole world in between my ear lobes
Been giving it all I got since mmm bop was hot
Live by those green lights, you know I never stop
You know I'll never flop, I was born to win
And outside of those so don't invite me in

Until the end I help it handling
Because you got nothing if you got nothing to give
I'm 'bout the thrill man fuck a buzz kill
They say they know the deal and they gonna tell me what's real
But what's real, cause I'll admit I'm confused and we all see things from a
different point of view
But matter of fact save it 'cause finding things out on my own is my favorit
e

I'd trade it for nothing
All I need it keep it coming
I came in with nothing
But I better leave with something
You will live free
Just as long as you pay your dues
Only one of me
And I hope there's not a lot of you
Oh oh, talk like the universe is listening
And doing things that the people should be witnessing
The positivity keeps me carefree
It's not about making it it's about making me
That's what I've been doing and continue doing
Mod Sun talk to 'em boy

I'd like to make myself believe
That planet Earth turns slowly
It's hard to say that I'd rather stay awake when I'm asleep
'Cause everything is never as it seems
When I fall asleep

On my own reason I ain't wastin' time no more
The almond brothers told me that
Its in that I'll make sure
That every moment gets a moment to the moment and hold it
Alright now keep it going
Ok my music is the key to a lot of doors
But I know people who dig it that it that's what I do it for
Whats more important than the machine is the power cord
In school I learned a lot but I taught myself a lot more
You say your so sure well I'm trying to make waves
I'm not doing it for the dollar bills I'm doing this to make change
But you cant make change without a good suggestion
So sometimes I will spend hours on just one sentence

Ironically the line I just said came out naturally
Somehow like it was meant to be
Like solution to a catastrophe
I and myself am proud of everything I've done
And I strongly believe the world needs more sun

I'd like to make myself believe
That planet Earth turns slowly
It's hard to say that I'd rather stay
Awake when I'm asleep
'Cause everything is never as it seems
When I fall asleep

I'd like to make myself believe
That planet Earth turns slowly
It's hard to say that I'd rather stay
Awake when I'm asleep
'Cause everything is never as it seems
When I fall asleep

I mean, I guess a lot of things have changed
But fuck I still feel the same
Shit I'm still doing the same thing I said I was gonna do in 8th grade
I told you I'm still me

I mean well basically mod sun like stands for just being happy
Just being positive at all times, you know
Like, shit I cant remember the last bad day I had
But for real though I'm serious just everything is always good
Because you can make it good
You have two choices you either make it good or you make it bad
You know you either look up or you look down
So you know that's just what mod sun is
Movement of dreams stand under none
You know I'm real heavy into the secret
And the law of attraction and all that stuff
And you know positive vibes man
Just like the hippies said
You know that's why I relate so well to all that hippie shit
Cause they were all love each other
All that shit I mean whatever I'm still all about that dude
I'm cool with everybody
So that's what Mod Sun is
Movement on dreams stand under none
If your like me this is perfect for you
So let your teeth show and make a Mod Sun
