

Hangover

Mod Sun

We at a place where we both feel relaxed, and
Think I can get it, I got her laughin'
I got credit, it's time to cash in
She knew how to act, so I yell "action"
I wanna smoke you without askin'
I wanna get you alone with no distraction
I wanna know what it takes to get a reaction
I was tryin' to get it without askin'

That's when I said "I think you should come over"
And she said "Maybe when both of us are sober"
But I know, I know you really want to get closer
And I think I got the cure for your hangover

I say let's get dizzy
You wanna take a shot?
First it goes bottoms up
Then you gon' get on top
Let me be your drink of choice
You will love the way I taste
You'll savor every drop
Let nothin' go to waste

Okay, just let me know what you are looking for
I will turn off the phone, and lock all the doors
I'll put in hours of work
You can put me on commission
The only way to get better
Is through repetition
With no intermission
Yeah, we can do it for days
We'd be switchin' positions
And doin' it in different ways
We'd be doin' it so good
They'd want a play-by-play
You give me headlines
And I'll give you the front page

That's when I said "I think you should come over"
And she said "Maybe when both of us are sober"
But I know, I know you really want to get closer
And I think I got the cure for your hangover

I say let's get dizzy
You wanna take a shot?
First it goes bottoms up
Then you gon' get on top
Let me be your drink of choice
You will love the way I taste
You'll savor every drop
Let nothin' go to waste

We can do it in the work place, on your birthday,
In my bed, or at your place
Fittin' those pants like her waist
And we can do this on the first date
Do anything for a taste

Introduce my beard to her waist
We can do it in a couple different states
I know we movin' fast, can't wait

She knows exactly what I'm talkin' bout
If we have a problem, then we gonna ride it out
It's not gonna quit, and you must admit
I put a smile on both sets of your lips

That's when I said "I think you should come over"
And she said "Maybe when both of us are sober"
But I know, I know you really want to get closer
And I think I got the cure for your hangover

I say let's get dizzy
You wanna take a shot?
First it goes bottoms up
Then you gon' get on top
Let me be your drink of choice
You will love the way I taste
You'll savor every drop
Let nothin' go to waste

Hippie Hop forever!
