I hope you choke on every lie you said to me
I hope you move out of this city suddenly
I hope you get everything you deserve
Karma's a bitch I heard

I hope your new man gives you something that you cant get rid o
f
I know you're missing all the things that you said you were sic
k of
And now you'll never come around me
I know you wish you never found me
But now you're stuck inside a world that you hate

I hope you choke on every lie you said to me
I hope you move out of this city suddenly
I hope you get everything you deserve
Karma's a bitch I heard

What goes around, comes around
I hope you get everything you deserve
Karma's a bitch I heard

I wrote down all of the things I miss
And your name's the first one on the list
I crossed it off... XOXO
I'm over my ex... are you really tho?

I hope you choke on every lie you said to me
I hope you move out of this city suddenly
I hope you get everything you deserve
Karma's a bitch I heard

What goes around, comes around
I hope you get everything you deserve
Karma's a bitch I heard

What goes around, comes around
What goes around, comes around
I hope you get everything you deserve
Karma's a bitch I heard
