No Escape

Mod Sun

We can't do it alone, but we can do it together
We can build a new way for us to save ourselves
Time is running out, so it's now or never (Yeah)
We're not gonna wait for them to send us help

All I know
Is things are getting worse by the minute
Losing hope
But I'll be right here til the thing ends

Just when you thought it was over
We came together and made a new world
There's no escape from the fire
We're in a state, a state
A state of survival
A state of survival

We can't do it alone, but we can do it together
Yeah, find a way to live when death is all around us
And yeah, we all know nothing lasts forever
Well you can count on me when there's no one left to trust

All I know
Is things are getting worse by the minute
Losing hope
But I'll be right here til the thing ends

Just when you thought it was over
We came together and made a new world
There's no escape from the fire
We're in a state, a state
A state of survival
A state of survival

And this place looks like a graveyard
Where zombies are my neighbors
But I could be your savior
Doo doo doo doo doo, doo doo doo doo doo
This place looks like a graveyard
Where zombies are my neighbors
But I could be your savior
Doo doo doo doo doo, doo doo doo doo

Just when you thought it was over
We came together and made a new world
There's no escape from the fire
We're in a state, a state
A state of survival
A state of survival
