Somebody get me off this ride  
I'm no good when I get this high  
Rollercoaster round and round... rollercoaster

Somebody get me off this ride  
I'm no good when I get this high  
Rollercoaster round and round... rollercoaster

I've been sober almost two years now...  
I'm so proud  
I walk into the room yeah I'm so loud...  
That's the universe talking  
I keep goin, no I can't slow down...  
I'm dodging my demons  
I'm dodging my demons

Somebody get me off this ride  
I'm no good when I get this high  
Rollercoaster round and round... rollercoaster

Somebody get me off this ride  
I'm no good when I get this high  
Rollercoaster round and round... rollercoaster

Face down on a mattress in the afternoon  
I'm so scared of the life that comes after you  
Nightmares with eyes wide open  
My big break almost left me broken  
Bad reputation still haunts me  
I know my past still wants me...

Bad reputation still haunts me  
I know my past still wants me...

Somebody get me off this ride  
I'm no good when I get this high  
Rollercoaster round and round... rollercoaster

Somebody get me off this ride  
I'm no good when I get this high  
Rollercoaster round and round... rollercoaster
