

Same Way Pt. 2

Mod Sun

As I dance
As I dance
As I dance
As I dance

I'm not afraid to say that I think I'm a hero
I vow to make the world a better place before my child turns 0
They say the darkest moment always comes right before dawn
Well lee let me push the sun out of the earth don't give up just hold on
(Walking in the same way...)

Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did

Yeah I only write what I feel might not say
what you wanna hear but at least I'm real

I wake up in the afternoon because I'm every morning
I'm going on Hunter Thomspson in the pages of my story
Many times I felt like Arthur Rimbaud in the 18th century
endlessly writing my poetry waiting for someone to listen to me
Then I found you we found each other I call you my sister I call you my brot
her
I call you my hippy I call you my friend and I swear it'll stay just like th
is til the end
Til the lights go out
No more seconds left
I say it out loud
With my last breath
I walk the same way

Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did

Yeah I only write what I feel might not say
what you wanna hear but at least I'm real

Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did

Yeah I only write what I feel might not say
what you wanna hear but at least I'm real

Walking in the same way as I did
Walking in the same way as I did

Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did
Walking in the same way as I did...
