Strangers

Mod Sun

I remember loving you before we ever met
Saw you on a TV then I met you through a friend
Then I started talking to you on the internet
Went from strangers to lovers to strangers again

First time
I ever made you laugh on FaceTime
I didn't know about your past life
I couldn't see the real you through the flashing lights, yeah

Baby, we were on fire
Could've built an empire
Guess I needed a reminder
You lose 'em how you find 'em

I remember loving you before we ever met
Saw you on a TV then I met you through a friend
Then I started talking to you on the internet
Went from strangers to lovers to strangers again
Just a couple weeks and I'm already moving in
Lying to each other while we're lying in your bed
Guess it really did go up in flames in the end
Went from strangers to lovers to strangers again

Our first fight
I saw your true colors, your bad side
Pictures on the internet you can't hide
Soon as I go out of state, I'm out of mind, yeah

Baby, we were on fire
But you're such a bad liar
Guess I needed a reminder
You lose 'em how you find 'em

I remember loving you before we ever met
Saw you on a TV then I met you through a friend
Then I started talking to you on the internet
Went from strangers to lovers to strangers again
Just a couple weeks and I'm already moving in
Lying to each other while we're lying in your bed
Guess it really did go up in flames in the end
Went from strangers to lovers to strangers again

Ay-ay, ay (Strangers to-, strangers again)
Ay-ay, ay (Strangers to-, strangers again)
Ay-ay, ay (Strangers to-, strangers again)
Ay-ay, ay (Strangers to-, strangers again, again)
