

Control

Modern Day Escape

I've been afraid and worried sick
Unhappiest with what they say
About me but it's over now
Inside my mind sometimes I lose control

I'm losing lose control

So now I'm done with you
Well I am done with the games and you're pulling my strings
I am through with you
Always telling me lies and controlling my life

It's the last nail in the coffin
Complete me
I am worn out feeling dirty
Love discretely
Sometimes I lose control

I'm losing lose control

So now I'm done with you
Well I am done with the games and you're pulling my strings
I am through with you
Always telling me lies and controlling my life

Look at, look at me now
(What do you say, what do you say)

So now I'm done with you
Well I am done with the games and you're pulling my strings
I am through with you
Always telling me lies and controlling my life
[x2]

I'm losing lose control
And I lose control
