

Gets Me Higher

Modern Day Escape

I wrap my lips around
This bottle
And take another shot at life
In denial

My mind is burning turning
From tears that I'm deserving

Love gets me higher
It's telling me I wanna start this fire
Love is killing me
Almost too much I think I'm suffering
I can't stand the way it feels
I can't stand the way it feels in love

I lost faith in the one thing
I held so dear to me
Myself died
I'm frozen inside

My mind is burning turning
From tears that I'm deserving

Love gets me higher
It's telling me I wanna start this fire
Love is killing me
Almost too much I think I'm suffering
I can't stand the way it feels
I can't stand the way it feels in love
(When I'm in love)

I can't sleep or dream without you
Keeps me up I scream and shout it out loud
And it's driven me insane

My mind is burning turning
From tears that I'm deserving

Love, love, love, love, love, love

Love gets me higher
It's telling me I wanna start this fire
Love is killing me
Almost too much I think I'm suffering
I can't stand the way it feels
I can't stand the way it feels in love
(When I'm in love)
